# BASKETBALL 3X3

## KEY INFO

Basketball 3x3 was one of the most recent events to be added to the Olympic programme in 2021 in Tokyo. The 3x3 match format is very different to normal basketball.

Three players per team compete using the same basket and shots made outside the line count for two points, while shots inside are only worth one. The winning team is the first to reach 21 points or the one leading the scoring after ten minutes of play.

# BEACH VOLLEYBALL

## KEY INFO

Beach Volleyball is played by two teams of two players on either side of the net, who face off in the best of three sets on a sand court that is 16m long and 8m wide, slightly smaller than an indoor court. The net is at the same height as indoor volleyball (2.24m for women and 2.43m for men). Beach Volleyball is contested by playing two sets to 21 points. Teams must win at least two points more than their opponents to win the set. If needed, the third set is played to 15 points.

# BOXING

## KEY INFO

Boxing is one of the only sports where amateurism, the cornerstone of the Olympic revival, has remained the rule for athletes, and in 2024 fighters will take to the ring on centre court. Despite the sport being added to the programme more than a century ago, women had to wait for the London 2012 Games before entering the competition.

**The boxing finals will take place at Roland Garros on the Philippe Chatrier court.**

# BREAKING

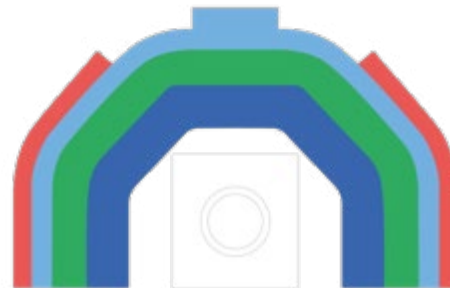

## KEY INFO

A young, acrobatic and urban sport, breaking will make its grand entrance on the Olympic programme at the Paris 2024 Games. Originating from hip-hop culture, it was born in the USA during the 1970s at block parties across the Bronx, New York City. As well as the athletes, the MC (Master of Ceremonies) and the DJ have roles to play in their own right at breaking events. Whilst the MC hosts the event, the DJ dictates the music the athletes must adapt their moves to. For Paris 2024, breaking will make its Olympic debut with two one-on-one battles events. The women's event will pit 16 B-Girls against one another, while the men do the same.

# CANOE SLALOM

## KEY INFO

Canoe Slalom competitions will be held in the brand-new whitewater stadium. The slalom competition is a timed run down a course with up to 25 gates to negotiate. Touching a gate adds a two-second time penalty to the run and missing a gate incurs a 50-second penalty. In Paris, a new slalom competition format will make its debut with Kayak Cross events (men and women). Like Ski Cross or Snowboard Cross, four athletes will set off together from a starting ramp and will have to navigate a course featuring ten gates or obstacles, and also requiring a kayak-roll. The first two athletes crossing the finish line without missing a gate progress to the next phase.

# DIVING

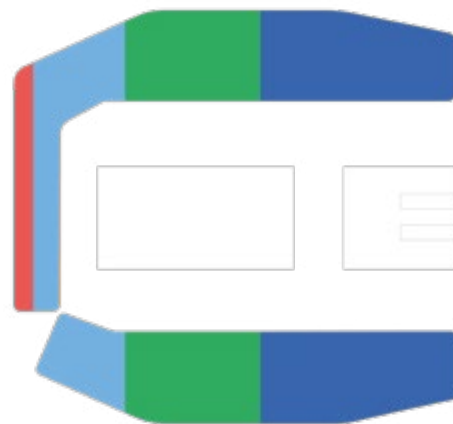

## KEY INFO

There are eight events on the Diving programme: the three-metre springboard (individual and synchronised) and the ten-metre platform (also individual and synchronised), split across gender. The three-metre event uses a board that allows athletes to bounce and gain height, whilst divers jump from a fixed and rigid board for the high dive. Dives are scored out of ten based on several criteria, including how aesthetically pleasing they are, their complexity, the degree of difficulty, the type of movements attempted (somersaults, pikes, twists and so on) and how well the diver enters the water. The synchronicity between the two athletes is also taken into account in synchronised events.

# HOCKEY

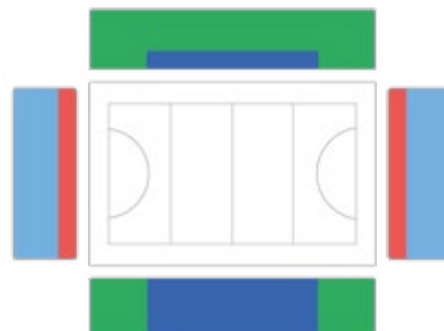

## KEY INFO

Speed, technical skills and fun! These are the characteristics of hockey, a thrilling and incredibly energetic sport which also requires endurance and coordination. Played on a watered synthetic turf for an even faster pace, a hockey match lasts 60 minutes. It consists of 4 periods of 15 minutes. On the pitch, each team has eleven players, including forwards, midfielders, defenders, and a goalkeeper. Each player can be replaced at any time and as often as desired. A team can choose to play without a goalkeeper (temporarily, in principle). The team scoring the most goals wins and in knockout matches, a shootout session may be required to separate the two teams.

# MODERN PENTATHLON

## KEY INFO

NORTH PARIS ARENA - ÎLE-DE-FRANCE

The Modern Pentathlon format now combines four events and five sports: riding, fencing, swimming and laser run (running and shooting). Due to the diverse nature of the events involved, modern pentathlon is an extremely demanding sport that pushes athletes to their mental and physical limits and requires an exceptional variety of skills. Athletes achieve cumulative points in each event according to their performance. In the last event, combined running and shooting, the athletes will start with a handicap time based on the conversion of the total Modern Pentathlon points from the first three events into time (1 point = 1 second). The first athlete to cross the finish line wins the gold medal.

# SAILING

## KEY INFO

Sailing at the Olympic Games comprises a multitude of boat categories, including one- or two-person boats, windsurfing, multihull and kiteboarding. However, all have the same aim: to travel as quickly as possible on a vessel, solely by harnessing the power of the wind. Ten events took place at the Tokyo Games and ten will take place at Paris 2024, with two new events – the iQ foil and kitefoil – both of which make it look as though the athlete is flying above the water. In 2024, the sailing events will take place at the Marseille Marina.

# SHOOTING

## KEY INFO

CHÂTEAURoux SHOOTING CENTRE  
CHÂTEAURoux

There are three different types of events at the Olympic Games: rifle, pistol and shotgun. Rifle and pistol events take place on shooting ranges, where competitors aim at targets at distances of 10m, 25m and 50m. There are also three positions: kneeling (where the competitor goes down on one knee and rests the elbow on the other knee), prone and standing, while some events include all positions. In the Shotgun events there are two types of events, Trap and Skeet. In Trap events, athletes shoot at clay targets moving away from them, launched from a trap pit, while in Skeet events the targets fly across the athlete's front, launched from huts on their left and right. A mixed Skeet team event will make its entrance for the first time at the Paris 2024 Olympic Games.

# SPORT CLIMBING

## KEY INFO

These spectacular and nail-biting events were first added to the Olympic programme at the Tokyo 2020 Olympic Games. There will now be two events on the programme (rather than just one), combining three disciplines. The best climbers in the world will compete in two separate competitions: a speed climb and a combination of bouldering and lead at Le Bourget Sport Climbing Venue in Seine-Saint-Denis. In 2024, speed becomes an event in its own right with an explosive one-against-one race where the fastest to climb a 15m-high wall wins.

# TRIATHLON

## KEY INFO

The format of the triathlon at the Olympic Games combines a 1,500m swim, a 40km cycle and, finally, a 10km run. There is no qualification, simply a single race at the end of which the fastest athlete is crowned the winner. At Paris 2024, the men will start the mixed relay event and the women will cross the finish line. This is the opposite to the Tokyo Games, where the women started and the men finished. In 2024, the triathlon events will start at Pont Alexandre III.

# VOLLEYBALL

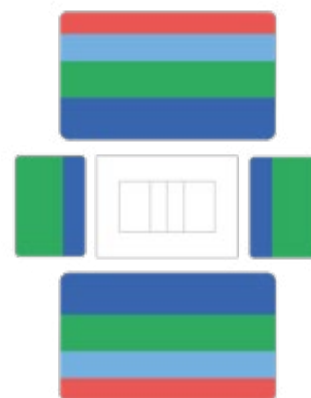

## KEY INFO

Volleyball is played by two teams of six players on an indoor court 18m long and 9m wide. Matches are played to the best of five sets.

Each set is played until one team reaches 25 points and, if the match is tied at two sets each, the fifth set is played until one team reaches 15 points. In a game of volleyball, the ball can reach speeds of up to 130km/h, particularly following a spectacular jump serve or smash. Athletes therefore require great strength and lightning-fast reflexes to compete.

# WATER POLO

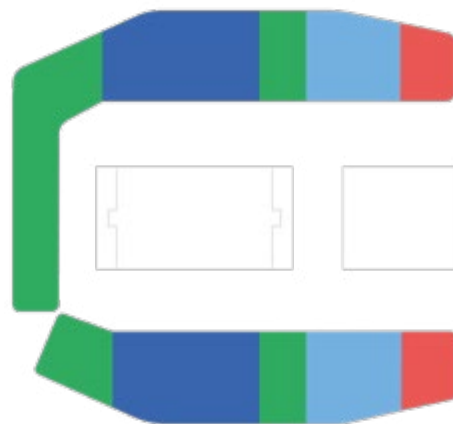

## KEY INFO

Water polo sees two teams of twelve players, seven on the pitch, battling it out in a pool of 30m by 25m for men and 25m by 20m for women, which is at least two metres deep. Matches are divided into four periods of eight minutes each. Apart from the goalkeeper, the players may only touch the ball one hand at a time and contact is only permitted with players who have the ball. Possession lasts for 30 seconds. If the team has not attacked at the end of these 30 seconds, the ball passes to the opponent.

# WEIGHTLIFTING

## KEY INFO

SOUTH PARIS ARENA 6 - PARIS WEST

The principle of Weightlifting is simple and has remained unchanged for millennia: lift more than your opponents. Athletes perform two types of lifts the snatch and the clean & jerk requiring exceptional physical strength, speed and mental resolve. Although the objective is simple, the competition is intensely strategic with athletes having just three attempts to establish their best result in each lift. The final ranking is determined by combining the best result in each movement to give a "total" result. In 2024, five bodyweight categories for women and five bodyweight categories for men will be contested at the South Paris Arena 6, an exhibition hall that will be transformed into a sporting arena for the occasion

# WRESTLING

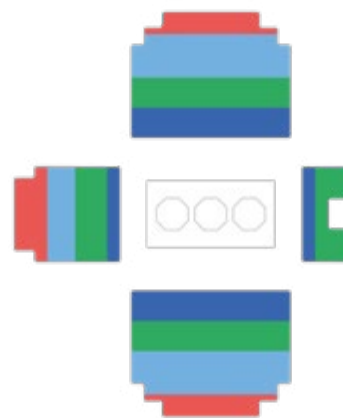

## KEY INFO

Modern wrestling consists of two disciplines: Greco-Roman wrestling (the direct successor to the ancient sport) and freestyle wrestling, the origins of which are more modern. In Greco-Roman wrestling, participants may only attack using their arms and upper body. Freestyle wrestling is a much more open form in which competitors also use their legs and can hold opponents above or below the waist. Contested on a circular combat area, a bout consists of two three-minute periods. At Paris 2024, Greco-Roman wrestling is a male-only event, while freestyle wrestling is open to men and women in six weight categories.
